

Maryland Fund For Horses

"Horse Bucks" Equine Health Care Assistance

Frequently Asked Questions & Answers

Summary: The MFFH Equine Health Care Assistance Program is a **rebate program** designed to assist horse/equine owners who demonstrate financial need with the cost of necessary health care for their equines. Rebates will be issued to cover actual, documented out-of-pocket expenses incurred by the horse/equine owner. **NOTE: Requesting assistance with a routine castration ("gelding")? Complete the simpler "Horse Bucks Equine Gelding Program" application instead of this application.**

How will it be funded? MFFH will conduct fundraising activities for a fund specifically earmarked for this purpose, and the Board of Directors at its discretion may earmark additional operating funds for this purpose.

Who will qualify for rebates? Individual equine owners may apply for a rebate. An Equine Health Care Assistance Committee will review applications for completeness and documentation of expenses and financial need, and will grant rebates **to the extent that funds are currently available**. For routine health care, applications will be reviewed and approved on a first-come, first-served basis. Requests for emergency funds may be considered outside of the normal queue under special circumstances.

Who will not qualify for rebates? Commercial entities of any kind, breeders and rescues are ineligible to apply for a rebate. Individuals who have previously been convicted of animal cruelty or neglect are not eligible to participate in the rebate program. While rescues may not apply, individuals who can produce satisfactory evidence that they have contracted with a rescue to adopt a horse may apply for and receive a rebate for the adoptable equine while the animal is still housed at the rescue.

Who will receive the rebate? Unless specifically arranged with MFFH, rebates **will be issued to the service provider (e.g., veterinarian, farrier, carcass disposal service)** upon submission of a detailed invoice. In situations where the rebate will be issued to the horse owner, MFFH must receive both a detailed invoice and a receipt indicating payment made by the applicant from the service provider.

How will horse owners be required to establish financial need? Equine owners should make use of other financial resources before requesting financial aid via this program. Examples of other financial resources include an existing major medical insurance policy, Care Credit, etc. When applying for a rebate, be prepared to commit to how much **you** are prepared to contribute toward the total cost of the procedure. For requests for a rebate of \$500 or less, applicant will submit a written explanation of his/her financial need and how he/she plans to resolve the situation and continue to care for the equine in question. In addition, the applicant will provide contact information for his/her veterinarian, farrier, or other service provider. MFFH will contact references to corroborate the horse owner's need for assistance. For rebate requests over \$500, the applicant may be required to provide additional documentation to confirm the need for financial assistance. For requests over \$1,000, the applicant will be required to submit documentation substantiating current income levels

(recent tax return, pay stubs, W-2's, 1099's, public assistance documentation, loss of employment documentation, current student ID, etc.). All personal financial information will be kept in strict confidence and sensitive personal information will be redacted before the documents are reviewed by the committee.

How often can a horse owner receive a rebate? In general, rebate recipients will be limited to one lifetime rebate per individual per horse. MFFH may make exceptions in extreme circumstances at its discretion, but may condition the granting of a rebate upon additional criteria and documentation, such as participating in educational programs or donating volunteer hours. Approved rebates expire 90 days after approval.

What dollar amount of rebates will be issued? The type and amount of rebate will be dependent upon the health care procedure and each individual's application and circumstances. Rebates can be requested for any type of health care procedure provided by a professional equine health care provider. The following are some general guideline amounts for some of the most common health-care procedures:

- Rebates of up to \$200 will be issued for routine castration
- Rebates of up to \$175 will be issued for euthanasia by pentobarbital injection
- Rebates of up to \$200 will be issued for post-euthanasia disposal
- Rebates of up to \$400 will be issued for cryptorchid surgery

See page 3 for examples of how rebates are calculated.

What else do I need to know?

- Because this is a new program, Maryland Fund For Horses reserves the right to amend, revise or cancel the program and its procedures and requirements at any time without advance notice. Any changes will be made prospectively and approved applications and rebates will be honored under the terms in effect when the application was approved.
- All participants in the program will be required to sign a release allowing MFFH to contact references and relieving MFFH of any liability that may be a result from any documentation or personal information obtained in determining eligibility.
- All participants in the program will be required to sign a release relieving MFFH of any liability for the equine health care procedure(s) for which a rebate has been issued.
- To help expedite the processing of your application, please contact everyone who you provided as a reference to let them know that they will be contacted by a MFFH representative in conjunction with your application.
- Applications for rebates should be made prior to the health care service delivery, but in cases of emergency treatment, MFFH will consider rebate applications for services performed up to 30 days prior to the date the application is received.
- After you submit an application, if your rebate is approved you will receive a document via e-mail from Maryland Fund For Horses, indicating your equine's name, the health care procedure and amount approved. You will not be eligible to receive a rebate without this document. If MFFH is unable to grant your request, you will receive a notice via e-mail advising you of that fact, and the reason(s) why your application was not approved.
- Rebates are valid only for the specific health care procedure or service defined in the application, and are valid for one use only. ***All rebate approvals expire after 90 days. Required documentation for a rebate must be submitted within 90 days of approval in order for a rebate to be paid.***

- Individuals who wish to request more information or an application should contact Maryland Fund For Horses at mdfundforhorses@gmail.com

Example of How MFFH Calculates Health Care Rebates:

Situation: Your horse needs a medical procedure. You consult with several different veterinarians (and contact MFFH for help if necessary) to obtain the best price quote possible for the procedure. The quote you decide to go with is for \$1,000 to perform the procedure. You submit an application to MFFH indicating that you can contribute \$200 toward the total, requesting an \$800 Horse Bucks rebate. Maryland Fund For Horses sends you an e-mail indicating that they will contribute up to a \$800 rebate for the procedure. This means MFFH has confirmed and earmarked up to \$800 of available Horse Bucks funds for your horse's surgery. Does this mean that MFFH will pay \$800 of the veterinarian's bill, and that your maximum out-of-pocket expense is \$200? Not necessarily. Please read the examples below to understand how rebates are calculated.

- **Example 1:** Everything goes exactly as planned. The veterinarian submits a bill for \$1,000. Maryland Fund For Horses sends payment of \$800 to the veterinarian and you pay the veterinarian for the balance of \$200.
- **Example 2:** Everything goes as planned, but the veterinarian decides to discount the charges for his/her services on behalf of MFFH's charitable involvement, and submits a bill for \$850. Maryland Fund For Horses sends payment of \$650 to the veterinarian and you pay the veterinarian for the balance of \$200.
- **Example 3:** A complication occurs and the final cost of the procedure ends up being \$1,300. Maryland Fund For Horses' share is limited to a maximum of \$800 and pays the veterinarian that amount. You will be responsible for the balance of \$500, unless you can negotiate a reduction in the amount of the charges in excess of \$1,000 with the veterinarian.
